British Standard Gratings - Safe Access Solutions

## An Introduction to BSG Products The safe solution for access and edge protection

### Open Steel Flooring

- All popular types of gratings.
- Fabricated to suit your steelwork layout.
- Close mesh gratings down to 20mm pitch.
- Gratings for balustrade infills and fencing.
- Stairtreads EX STOCK.

### Handrail Standards

We have EX STOCK galvanised 42.4mm diameter Standards to suit 33.7mm diameter handrailing with a variety of different baseplates.

All sizes of tubular and solid and standards are manufactured and self colour sticks are EX STOCK.

Send for one of our ex stock forms.

### Handrailing and Components

- Fully fabricated handrailing.
- Full range of FASTCLAMP handrail fittings.
- Temporary edge protection system.

## LATEST NEW RELEASE

### New Toe Plate Clamp System

**BSG toe plate clamps are available from stock, galvanised, in two sizes:**

**TPC25 - to suit 33.7mm diameter uprights**

**TPC32 - to suit 42.4mm diameter and 48.4mm diameter uprights.**

- Simply secured by use of a grub screw, no drilling of holes required.
- Easily installed on site.
- Can be installed as retro fit to existing handrailing.

Dependant upon the length of run, toe plate clamps can be used 2 per standard or 1 per standard alternating from the top of the toe plate to the bottom of the toe plate.

Also available are joint splice plates and 90 degree corner joints.
